## Virtual International Conference on 'Statistical Tools and Techniques for Research Data Analysis'

### ICSTRDA -2021

3rd week of January 2021 (Actual dates will be  
announced soon)

## School of Library and Information Science

More and more organizations in India are embarking on new concepts in handling information. With the changing times, information formats also have changed rapidly from print on paper to digital. There is a need for qualified and trained Library and Information Science professionals to take the lead and guide developments in helping the end users in the knowledge society. Central University of Gujarat has started the Master's & Research programmes in Library and Information Science with a view to produce trained professionals in the areas of information science and management.

### Conference Theme

The conference is being organized with an intention to bring top researchers in this area to the forum and provide an opportunity to explore the intersection of Statistics with Data Analytics and Data Science. This will enable them to utilize the sophisticated ways of data analysis in learning and applicability in the emerging trends applicability of the emerging trends in their research. The conference will focus on basics to advanced statistical methods using computational techniques and their application in research of various disciplines namely Information science, Humanities, Agriculture, Biosciences, Basic sciences and Life Sciences.
