

Central University of Gujarat

Environment Policy

The Environment Policy of Central University of Gujarat is focusing on the concept of Environmental Sustainability and committed to improve its environmental performance as part of social responsibility.

CUG is fully committed to:

- Provide a clean, green and healthy environment.
- Establish Eco club for observing and performing various environmentally friendly activities.
- Protection and conservation of the natural environment.
- Conservation and optimization of the use of energy and natural resources through awareness program.
- Water conservation by constantly enhancing efficiency and use of improved technology and 'Integrated Management System'.
- Enhancing plant biodiversity
- Field exposure to students to understand the nature and importance of conserving environment.
- Appropriate recycling and disposal of waste for improvement of ecosystem.
- Increased awareness of all stakeholders (Faculty/Staff/Students) through various awareness program.
- Promoting plastic free campus.
- Promoting waste to wealth concept among Faculty/Staff/Students.
- Celebration of various important days related to environment (Earth Day, Water day, Wetland day, Biodiversity day etc.)
- Promoting technology from lab to land for societal /rural benefit
- Promoting millets which require less water and convert more carbon dioxide to oxygen, contributing to mitigating climate change
- Community participation for clean environment.
- Organize various workshops, seminars and conferences to create environmental awareness through UBA, NSS, EBSB.
